

Gulf Coast Orchid Alliance Show Schedule
Annual Show, March 25th, 26th, and 27th, 2022
A Galaxy of Orchids

Gulf Coast Orchid Alliance will be combining with Naples Orchid Society for the 2022 Show!

Guidelines

With so many name changes having occurred in the generic components of numerous genera, the show committee has not itemized all of the acceptable names for the multi-generic combinations eligible in this show schedule. Exhibitors should consult one of the electronic orchid databases currently in use to verify that the generic nomenclature used for a particular entry is valid.

All orchid plants and exhibits are required to remain in place throughout the duration of the show. All exhibitors are hereby notified that it may be necessary for the show committee to move plants and exhibits to allow for proper spacing. Exhibitors are responsible for creating exhibits that will be portable or moveable.

All orchid plants and exhibits may be considered for AOS awards, which are a recognized measure of quality the world over and coveted by all orchid growers. Exhibitors are responsible for paying the AOS fees associated with winning these awards. If exhibitors choose **not** to participate in AOS judging, they must clearly mark on the registration tag that their plant is “not for AOS Judging” so that the Head Clerk may inform the Judging Chairperson.

Current hobbyist members of GCOA and NOS only may compete for GCOA ribbons and awards. A registration tag shall be completed for each individual orchid plant or exhibit entered in the show.

Individual plants may **only be entered into one class**. Different clones of the same grex should be entered in the same class.

Flowers exhibited in Hobbyist Orchid Cut Flower Arrangement classes are **not** eligible for GCOA Individual Plant class ribbons or awards.
